WEDNESDAY, NOVEMBER 20, 1897.

With four wars in progress—two in America, one in South Africa and in the Philippines—the telegraphic cables are interesting.

As our back yards and alleys a little cleaning up. What is the use of having some of the hoboes now visiting our city? Start a gang.

UNALDO is at last up against something that is purely American; it's the Mexican volunteer that "all hell can't" As long as he was fighting Gen. Otis' typewriter Aggy had smooth g, but he has trouble in the rear, out and on both sides now.

Most reliable reports which have received from Cape Nome indicate the gold deposits in that quarter turn out to be at least as rich as found in Klondike. Happily, too, Cape Nome diggings are in America.

El Paso Times says: "The misadventure of Arizona has turned Hart loose on the country to hold and rob people at her own sweet will. The men who took an oath to find out in accordance with the law and violence, and then didn't do it, and serve a term in the Arizona penitentiary."

mining resources of Cochise county are being rapidly brought to the surface. There is not a week passes but eight to ten mining locations are located. Each location means that worth of work has been done on claim. Scarcely a day passes but some prospector brings into Bisbee of quartz, or copper stain, or has found in the mountains of county. There is no business that greater returns or has a more bright future than our mining industry.

elections of last Tuesday show a Democratic victory. They have Maryland, Mississippi and Kansas. As expected, the Republican carried Ohio, while they under a in Kentucky which has played a role in doubt, and it may be necessary for the legislature to decide whether the Democrats or Republicans be the gubernatorial chair. Bryan state stands by him. Colwell Democratic. Taken all in all election of last week was a Democratic victory.

death of James Finley at Tucson the following from an exchange: ranks of the Arizona pioneers are thinner, the old men who blazed trails are fast being gathered to others. Much is due to the men pioneered the way to this savage of thirty years ago. How little people who today in Arizona consider the blessings of modern civilization consider their cost. The hillsides are dotted with unmarked graves, telling more plainly than words of the privations and struggles of Arizona pioneers. The palace deck along where years ago the some mule and ox teams wended a dangerous way. The whoop of the team is heard no more in the land, and the mule team have given well equipped modern railways, here solitary reigned supreme to hear the welcome laugh of children and civilization's busy whirl. We are thankful for the change. Yet we would be thankful for the brave of long ago who brought about beneficent change."

Chamberlain's Pain Balm Cures Others Why Not You?

He has been using Chamberlain's Pain Balm, with good results, for a lame leg that has pained her continually for years. We have tried all kinds of medicines and doctors without any benefit from any of them. We saw an advertisement of Chamberlain's Pain Balm and thought of using it. We did with the best of satisfaction. She has used only one bottle and is almost well.—ANON. L. T. Manchester, N. H. For sale by all druggists.

## Catarrh is Not Incurable

But it can not be cured by sprays, washes and inhaling mixtures which reach only the surface. The disease is in the blood, and can only be reached through the blood. S. S. S. is the only remedy which can have any effect upon Catarrh; it cures the disease permanently and forever rids the system of every trace of the vile complaint.

Miss Josie Owen, of Montpelier, Ohio, writes: "I was afflicted with Catarrh, and no one could know the suffering it produces better than I. The sprays and washes prescribed by the doctors relieved me only temporarily, and though I used them constantly for ten years, the disease had a firmer hold than ever. I tried a number of blood remedies, but their mineral ingredients settled in my bones and gave me rheumatism. I was in a miserable condition, and after exhausting all treatment, was declared incurable. Seeing S. S. S. advertised as a cure for blood diseases, I decided to try it. As soon as my system was under the effect of the medicine, I began to improve, and after taking it for two months I was cured completely. The dreadful disease was eradicated from my system, and I have had no return of it."

Many have been taking local treatment for years, and find themselves worse now than ever. A trial of S. S. S. for the Blood will prove it to be the right remedy for Catarrh. It will cure the most obstinate case.

## COPPER IS THE METAL.

The Cochise Copper Mining Company, Bisbee, Arizona.

This company owns a very valuable group of mines situated in Warren mining district, county of Cochise, Arizona, lying immediately east of and adjoining the town of Bisbee, and adjoining the property of the Copper Queen Consolidated Mining Company on the north. The latter company has been in operation for about twenty years, and employs about 1,500 men daily in the operation of its mammoth mine and smelters, and as a result has produced copper to over 34,000,000 pounds during the year 1896, and the net proceeds of such production are reported to have been over \$2,000,000 and it has been said by experienced miners who have been under its employ for years, that the Queen mine now has sufficient ore in sight to keep it in constant operation for the next twenty years without further development.

Is it not reasonable to believe that the property of the Cochise company is fully as valuable, when it is within such close proximity to such a wonderful mine?

The blasts set off in the underground workings of the Queen property can easily be felt and heard at the shaft of our mine, and oftentimes the concussion has attracted marked attention.

The original owners of these valuable mines are local business men, well and favorably known in Bisbee and surrounding vicinity, who are doing their utmost to make this enterprise a success in every respect. The board of directors are original owners, and are donating their services to the company until such time as the mine will pay dividends. They own the controlling interest in this property, and as a protection to stockholders have placed their entire interest in escrow for a term of one year.

The stock books of our company are now open for subscriptions, and a limited number of shares are offered at ten cents per share. No application for less than 100 shares will be accepted.

The company reserve the right at any time to advance the price of shares without further notice, or to reject any application for stock at their discretion.

Every cent received from the sale of stock will be expended toward the development of our property and the erection of hoisting works, and all other necessary improvements, and to make our enterprise a success in every particular.

We invite investigators and their experts or their engineers to closely scrutinize our property.

Applications for shares may be made to any of the directors of the company, or to any of our legally authorized representatives.
